

# Highlight essential safety measures to stop the spread

In most cities, new guidelines suggest citizens to physically distance and use face coverings in public. To ensure safety of occupants, building owners and safety managers must provide clear visible signage.

ABB is introducing special wording signs designed to meet COVID-19 public safety measures implemented in most public locations.

## FEATURES

- Single or double face
- AC only and Self-powered
- Choice of finishes: white, black and brushed aluminum
- Surface or recessed mount
- 120-277V
- Low operating costs due to the low power consumption (1.5W)
- Die-cast aluminum construction
- Clear acrylic panel with laser-etched graphics
- CSAus certified

## ORDERING INFORMATION

SERIES	ENCLOSURE COLOUR	TRIM	CIRCUIT VOLTAGE	SPECIAL WORDING PANEL	FACES/ARROWS
