

Lightalarms®

LAMM Series

One compact solution. Endless commercial applications.

The **LAMM Series** mullion mount is a compact, versatile LED lighting fixture designed for commercial applications where others struggle to fit.

Purpose-built for Mullions, door frames, and other narrow architectural features, the **LAMM Series** delivers a clean, low-profile look while providing dependable illumination exactly where it's needed. Its adaptable design allows it to function as everyday lighting or emergency lighting, making it a versatile choice for both routine operation and critical moments.

Versatile by design.
Reliable by nature.

Key advantages

Optimized for tight spaces

Delivers strong performance where space is limited.

Clean, modern design

Low-profile housing blends seamlessly into modern commercial environments.

Flexible options

Available in various colors and input power options.

Dual-purpose use

Supports both standard and emergency lighting.

Versatile environments

Suitable for indoor, outdoor, and wet locations.

Easy installation

Multiple mounting options for new builds or retrofits.

Types of applications

Choosing the **LAMM Series** mullion mount means choosing a smart, space-efficient solution that delivers flexibility, consistent performance, and seamless integration across commercial applications.
