

TRIAD LED RETROFIT KITS

TRIAD
Incandescent Retrofit

TRIAD
Fluorescent Retrofit

- Reduces Energy Consumption
- Fits All Exit Signs With Easy Installation
- Provides Even High Brightness Illumination
- Fluorescent and Incandescent Bases

features

- Utilizes innovative new design that focuses upon incorporation of three LED Strips (Light Emitting Diodes) to maximize even illumination.
- Consumes 1.5 watts for incandescent based version, 1.6 watts for fluorescent lamp base version. (See bases below.)
- Ultra safe design operates LED's with regulated voltage within rated current and temperature limits to ensure long life.
- Triad retrofit kits are designed to operate on 120VAC only.
- Red LED bulbs only.

ordering information

To order specify the model number per the following sequence: **Example: LRB-C**

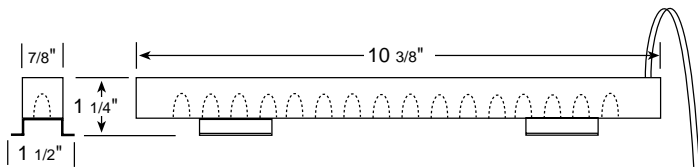

LRB-

- C = Candelabra Base
- B = Bayonet Base
- I = Intermediate Base
- M = Medium Base

F= Fluorescent Bases (PL5, 7, & 9) 120 Volt Ballast Only

LED STRIP RETROFIT KIT

Dimensions are approximate and subject to change.

- Reduces Energy Consumption
- Provides Even High Brightness Illumination
- Hard Wired into Exit Sign

features

- Full even illumination.
- LED's use 2 watts of energy for either single or double face.
- Available for both 120/ 277 dual volt applications.
- Permanent hard wired kits easily install in just minutes.

KITS INCLUDE:

1 LED Strip and 1 Red Translucent Lens
(For double face signs, order additional lens 240.1718)

ordering information

To order specify the model number per the following sequence:

Example: LEC-RX-120/277

LEC 120/277

- RX= Red LED AC-Only
- GX= Green LED AC-Only
